COMMERCIAL INVOICE PROCESSING

Policy Statement

Suppliers are requested to send all invoices directly to the Accounts Payable department for processing to facilitate prompt payment. If the invoice is sent to another organization within the university, that organization must forward the invoice to the Accounts Payable department for payment on a timely basis.

Reason for Policy

All invoices should be paid within 30 days of the invoice date or date of receipt, unless there are favorable discount terms offered to the university for making payment earlier.

Policy

The Accounts Payable department uses the following guidelines in processing supplier invoices for payment:

- Internal users, who receive invoices directly from the supplier, should submit supplier invoices through the online invoice submission process.

- Suppliers may submit their invoices related to purchase orders either on paper via US mail or electronically at acctspay@gwu.edu. Submission electronically is preferred.

- Supplier invoices are categorized as follows:
  1) exempt from competition
  2) via a purchase order
  3) via a blanket purchase order and release number

- Purchases exempt from the Competitive Source Selection process do not require a purchase order. A full list of these transactions can be found on the Procurement department website.

  o Invoices related to these purchases require departmental approval before payment processing can occur. Invoices without departmental approval will be rejected with written notification to the submitting department.

- Any invoice that does not include a required purchase order or blanket purchase order and release number, and / or is not exempt from competition, will be rejected with written notification to the submitting department.
Two-Way Match

Two-Way Matching applies to:

- Purchase order related supplier invoices for goods less than $3,000 and all invoices for services.

- The Accounts Payable department will pay the amount due upon receipt of the invoice and verification of the amounts and quantities or services to the purchase order. A matching receiving document or evidence of receipt is not required.
  
  o If there are discrepancies, the invoice will be placed in a HOLD status until the discrepancy is resolved. The receiving department will collaborate with the supplier and the Accounts Payable department to resolve any variance or issue(s) and to complete the appropriate transactions.

Three-Way Match

Three-Way Matching applies to:

- Purchase order related supplier invoices for goods greater than or equal to $3,000.

- Purchase order related supplier invoices for goods that are greater than or equal to $3,000 will be matched to a purchase order and evidence of receipt of those goods before processing for payment. The department ordering the goods is required to record verification of receipt in the Enterprise Accounting (Oracle) or iBuy system.
  
  o If there are discrepancies, the invoice will be placed in a HOLD status until the discrepancy is resolved. The receiving department will collaborate with the supplier and the Accounts Payable department to resolve any variance or issue(s) and to complete the appropriate transactions.

Supplier Invoices with Freight Charges

The university’s preference is to eliminate or reduce freight charges. If freight charges are required, the freight charge must be added to the purchase order.

When a supplier invoice does not include a unique invoice number, a Payment Request Form should be attached to the invoice.
Definitions

**Purchases**
Acquisitions made by (1) an exempt from competition purchase by the department or (2) through a requisition to the Procurement department (via the Oracle system or the iBuy+ system) or (3) with a Procurement Card (P-Card).

**Two-way Match**
The invoice processing method whereby the supplier invoice is matched only to the purchase order.

**Three-way Match**
The invoice processing method whereby the supplier invoice is matched to the purchase order and to evidence of receipt.
